- COMMUNICATION

EDUCATION

**BTECH - COMPUTER SCIENCE
ENGINEERING (IOT & AUTOMATION)**

SASTRA UNIVERSITY

2021-2025

LANGUAGES

- English
- TAMIL

PROFILE SUMMARY

I am a final-year Computer Science Engineering student with a strong foundation in Java programming and web development. I am proficient in Java and experienced with HTML, CSS, and JavaScript. I am skilled in Data Structures & Algorithms (DSA) problem-solving, demonstrated through coursework and projects. As a quick learner with a strong ability to adapt to new technologies, I am eager to apply my academic knowledge and practical skills gained through internships to launch a successful career in software development. I am actively seeking on-campus placements to contribute effectively to a forward-thinking team.

PROJECTS

Comprehensive Exploration of Emergency and Threat Management System

HTML, CSS, JAVASCRIPT, PHP, MYSQL

- Developed a responsive web application to manage emergency situations.
- Implemented Geolocation API to accurately identify accident sites and automatically notify nearby hospitals, significantly reducing ambulance dispatch time by 40% and improving emergency response efficiency by 30%.
- Successfully implemented mobile responsiveness and real-time data handling to ensure prompt emergency response.

Innovative Food Delivery Web Application [\[LIVE LINK\]](#)

HTML, CSS, JAVASCRIPT, REACT JS

- Developed a responsive food delivery website using React JS for the frontend.
- Designed to provide a seamless user experience for browsing menus.
- Implemented functionality for adding products to cart.
- Enabled users to place orders easily and Integrated features for tracking deliveries in real-time.

PROJECT SKILLS

- Strong problem-solving and analytics skills.
- Excellent verbal and written communication skills.
- Ability to work collaboratively in a team environment.
- self-motivated and eager to learn new technologies.
